@Ordna-dev

## PROFILE

I am a IT person with minimal experience in front-end and back-end development for web and mobile applications. I am driven by a passion for problem-solving and the pursuit of new technological frontiers. I am seeking a position that will enable me to apply my development expertise with a particular emphasis on business and customer-oriented solutions.

## LABORAL EXPERIENCE AND VOLUNTEERING

Digital Workshop  
January 2023 - July 2023

### Internship - Full-stack web developer

- As a team, we participated in the creation of websites with Laravel focused on sales and tracking services, using the waterfall development model.
- I contributed in the documentation of projects following the IEEE 1471 standard for software architecture.
- In our team presented software developments, in both virtual and presential modality.
- Collected and effectively incorporated feedback from supervisors and users on software modifications.

CuceiMobile  
September 2023 - July 2024

### Social service - Developer of mobile applications

- As a team, we developed and maintained mobile applications with Angular and Ionic, following the waterfall methodology of software development.
- I contributed to the documentation of projects according to IEEE 830 standards for software requirements gathering and IEEE 1471 for software architecture.
- I participated in meetings for proposals and project follow-up.
- As a team, we incorporated client's modifications and suggestions during development.
